John Carter of Mars

Mountain Crane Service was recently invited to help on the movie set for Disney/Pixar's production of "John Carter of Mars", the first segment of a trilogy based on Edgar Rice Burrough's *Barsoom* series. Scenes will include shots of Lake Powell, Moab, and Delta.

Mountain Crane's 500 Ton Demag AC1300 All Terrain Crane was utilized to place equipment on set with as little of an impact to the environment as possible.

Feel free to check out more information on the production at [Millard County Chronicle Progress newspaper website](#).

Look forward to the release of "John Carter of Mars" in 2012, the 100th anniversary of the story's first publication.

Crane Operators Recognized For Achievements

Two Mountain Crane Service crane operators were recently recognized by the SC&RA Crane & Rigging Group for having **10,000 consecutive hours with no accidents or incidents**. Additional criteria included safety certifications, years' experience, and crane knowledge. Only 16 operators qualified for this award nationwide.

Tyson Allen and Doug Steinfeldt have both been with Mountain Crane from the beginning and we are thrilled to have them recognized for their outstanding achievements. Both are excellent mentors to other employees and great examples of safety on and off the job.

GSL Minerals

Mountain Crane Service has been working with CCC Group Inc. at the GSL Minerals facility in Ogden, Utah since late 2009. The project has consisted of civil, structural, and equipment installation. Both our Manitowoc

14000 220 ton crawler crane and Manitowoc 777T 220 ton conventional truck crane were utilized on this project.

Mountain Crane appreciates the support of Bruce Jeffrey, Jeff Reich, Chris Cox, and Jim Mitchell during the project. We look forward to working together on many more projects in the future.

If you would like to have your

project featured in our newsletter, send photos and project information to marie@mountaincrane.com.

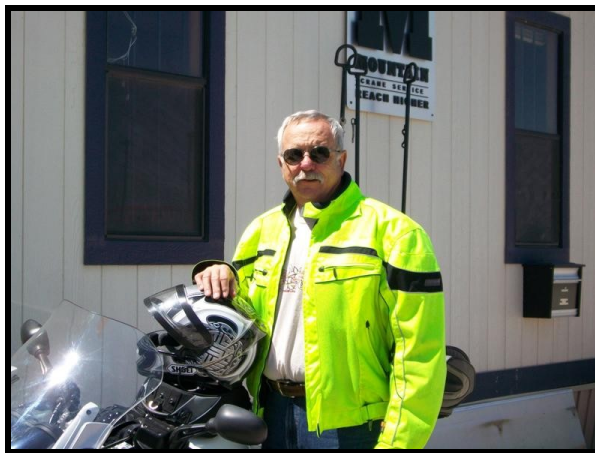

Employee Spotlight

Gary Rehmer has recently joined the Mountain Crane Team as **Safety Manager**. He has over 30 years' experience in project management after his service with Chevron. Gary spent the majority of his time based at the Salt Lake Refinery, where he was promoted to Construction Manager. He also spent several years at the Carter Creek Refinery in Wyoming.

Gary has participated in turnaround projects worldwide. His key projects include: Coke Drum Replacement, Crude Unit Furnace, Hydro-Fluoric Mitigation (HFM), and Waste Water Plant. He has overseen the construction and placement of "numerous" tanks in his time. He has also served as an IIF (Incident and Injury Free) instructor and organized the original Contractor Safety Orientation for Chevron Salt Lake Refinery.

Gary has been married for 37 years and has 3 kids. He served in the Air Force during Vietnam and enjoys spending a little free time out on the open road.

We are happy to have Gary with us and have already benefited from his vast experience with project management and safety.

Gift Card Winners

Mountain Crane Service is pleased to award Cabela's Gift Cards to...

Ron Zierman, Elkhorn Construction & Chris Cox, CCC Group Inc.

Josh and/or Skyler will deliver your prizes shortly. Additional gift cards will be awarded in our August newsletter!

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, mobile homes, windmills, and bridge girders, to name a few.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification. We have a clean OSHA record and take pride in our safety record.

Check out our website at www.mountaincrane.com for more information.
