July 2010

Wyoming Location

Mountain Crane Service is now in Wyoming! We have a yard located in **Green River** and a **full-time representative** ready to serve your needs. Doug Steinfeldt is an extremely capable crane operator who can walk through a job site, quote your upcoming project, and operate the crane when the time comes. He has full back-end support with the Mountain Crane Service Team.

Inside this Issue:

- Wyoming Location
- 4th of July & Pioneer Day
- Daybreak Bridge
- Employee Spotlight
- Equipment Rodeo
- CCO Crane Operators

Happy 4th of July & Pioneer Day

Mountain Crane Service hopes that you have had an enjoyable summer holiday season.

We are very grateful for the freedoms we have been blessed with in this great country and for the pioneers that came before us.

Daybreak Bridge

Mountain Crane Service recently set a pedestrian bridge in Daybreak for Ralph L Wadsworth Construction. The Oquirrh Creek Bridge was set in two pieces, each section weighing 38,000 lbs.

Mountain Crane's Liebherr LTM1225 300 Ton and Grove GMK5275 275 Ton All Terrain Cranes were utilized to complete this project at a radius of 70 feet.

This lift was drawn up in Auto-CAD to our customer's specifications before any equipment was mobilized.

Employee Spotlight

Josh Martin is the **Senior Estimator** at Mountain Crane Service. He loves all things BYU and is an excellent golfer. He has been married for 15 years and has 4 kids: 2 boys, 2 girls.

Josh worked for ICM (later bought out by H&E Equipment) in smaller equipment rental for over 15 years. He loves working with cranes and has been a great asset to the Mountain Crane Team.

In his spare time, Josh can be found playing baseball with his boys, golfing, or just hanging out with his extended family. He can also whip up some mean breakfast crepes.

Equipment Rodeo

Mountain Crane Service participated in **Commuter Rail Constructors' Equipment Rodeo**. We displayed our GMK5275 All Terrain crane and enjoyed the company of good friends and colleagues.

Mountain Crane Service also displayed our GMK5275 All Terrain crane at the **Herriman Days** celebration. Here kids in the community were able to walk through several different kinds of equipment and learn more about construction.

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, mobile homes, windmills, and bridge girders, to name a few.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification. We have a clean OSHA record and take pride in our safety record.

Check out our website at www.mountaincrane.com for more information.

CCO Crane Operators

All Mountain Crane Service operators are CCO Certified. Mountain Crane Service employs only the best of operators that we have confidence in.

The NCCCO is an independent, non-profit organization that sets the standards for knowledge and skills required for the safe operation of cranes. Crane operator certification results in fewer injuries and fatalities, a better work environment for us all.

Lon Stam was the first crane operator to receive the CCO Certification within the state of Utah and has always been a great supporter of the organization.
