November 2010

Pumpkin Shoot

Mountain Crane Service recently participated in the annual White Construction Pumpkin Shoot. Decked out in camo gear, the Mountain Crane guys enjoyed a full day of shooting guns in all shapes and sizes.

The pumpkin featured below was Mountain Crane's contribution to the event. It weighed over 900 lbs. and was shipped from New York specifically for this event.

Jacks and Skates

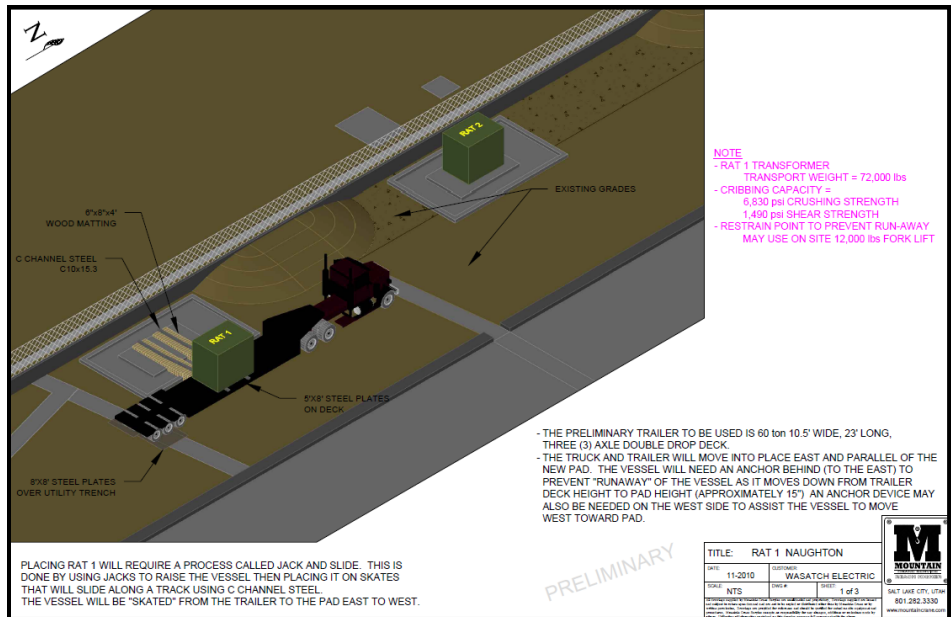

Mountain Crane Service is expanding our rigging services. We have recently been working on several job sites requiring jacks and skates. Mountain Crane employees have been trained by highly capable industry professionals. Each crew is lead by an experienced supervisor and each project has been carried out safely and efficiently.

Mountain Crane Service estimators and engineers are available to look through any upcoming project you may have. We feel that our lift experience and variety of services can be a great asset to you as you plan your next lift.

Pictured is a AutoCAD drawing prepared by our lift engineer in the planning phases of a jack and roll lift.

AutoCAD drawings can be prepared for any upcoming project to meet customer and property owner specifications.

For additional information regarding our engineering services feel free to contact Jared at jared@mountaincrane.com.

Employee Spotlight

Brandon Walker grew up in California and is a fan of the big three local sports teams: San Francisco Giants, Sacramento Kings, and the 49ers. He is fluent in Spanish and likes to travel throughout Central and South America. Mountain Crane Service is currently utilizing his skills in this area as a translator and business development.

In his spare time Brandon enjoys spending time in the great outdoors including recreational sports activities with friends and camping.

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, windmills, and bridge girders, to name a few.

Heavy Haul service is also available.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification.

Check out our website at www.mountaincrane.com for more information.

Looking Forward: 2011

We look forward to another good year in 2011. In the past year, we have added both new cranes and new customers. Over the next couple months we hope to follow up on spring projects and help customers find the best crane for their job sites. Our sales and engineering team are available for project walkthroughs.
