December 2010

Jacobsen Tower Crane

Mountain Crane Service has been partnering with Jacobsen Construction for the dismantling of tower cranes on the City Creek project. The tower crane disassembly shown to the right utilized our LinkBelt LS348 300 Ton crawler crane with 200 feet main boom and 160 feet luffer.

The process of taking the sections apart was particularly difficult due to cold weather and icy conditions. The tower crane was over 300 feet high. Our crews, directed by Travis Horton and Tyson Allen, performed a quick and efficient turn around.

Our cranes can be found downtown dismantling other tower cranes over the next several weeks.

Spotlights from Previous Issues

If you would like to learn more about some of the team of Mountain Crane, please check out the Employee Spotlights from previous 2010 issues.

Gary Rehmer (Safety Manager) - May

Rich Hunt (Project Superintendent) - June

Josh Martin (Senior Estimator) - July

Skyler Mundy (Estimator) - August

Travis Horton (Operations Manager) - September

Nicole Hudson (Maintenance Secretary) - October

Brandon Walker (Business Development) - November

John Krane (Bare Rental Manager) - December

Christmas Party

Mountain Crane Service held its annual Christmas party for employees and families early in December. With almost 300 people in attendance we had quite a crowd to enjoy the various games and activities set up throughout the facility.

A highlight of the evening was a visit from Santa and Mrs. Claus who presented each child with a special gift.

Mountain Crane Service wants to thank its employees once again for all their hard work and great attitudes. We have a excellent group of people and consider everyone to be a part of one big, happy family.

Happy Holidays from Mountain Crane!

Employee Spotlight

John Krane is new to the Mountain Crane family. He has a great deal of experience from his work history with Sterling Crane in Colorado and Crane Rental in Florida. He also has an MBA from Baker University.

He is our new **Bare Rental Manager** and has done an excellent job in developing better processes in the short time he has been with us.

We are excited to have John as a part of our team. In his spare time John enjoys playing hockey, coaching baseball, riding dirt bikes, spending time outdoors, and being with his family.

He and his wife, Shelley, are the parents of two children, one daughter and one son.

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, windmills, and bridge girders, to name a few.

Heavy Haul service is also available.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification.

Check out our website at www.mountaincrane.com for more information.
