# Primary Children's Hospital

Intermountain Healthcare is expanding their Primary Children's Hospital network with a 38 acre campus in Lehi, Utah. Construction for this project started in 2020. Our team partnered with SME Steel to hang steel for the main campus. Primary Children's Hospital in Salt Lake City serves infants, children, teens, and young adults ages 0-21 throughout the states of Utah, Nevada, Idaho, Montana, and Wyoming. This state of the art children's hospital will be an important asset to these surrounding areas. Our team is honored to have participated in such a paramount project. The hospital's estimated completion date is early 2024.

# Pediatric Care Closer to Home for Many

**4,228** Tons of Steel **LR 1300, P&H 9150**

## TOPPING OUT CEREMONY

Our crew set the final beam in place this week at the topping-off ceremony for the hospital. Placement of the beam marks the completion of the main campus structure, a major milestone on the \$500 million project. The topping off ceremony included the tradition of crew members and officials signing the beam and placing an evergreen on top to signify safety and prosperity of the project.

# 2021 SCRA Safety Award Recipients

**2021 AWARD**  
CRANE OPERATOR  
SAFETY

Evans, Jared Neeley,  
Jeff Skewes  
Jens Helquist, Kasey  
Mcgee, Matthew  
Mitchem, Riley Allen

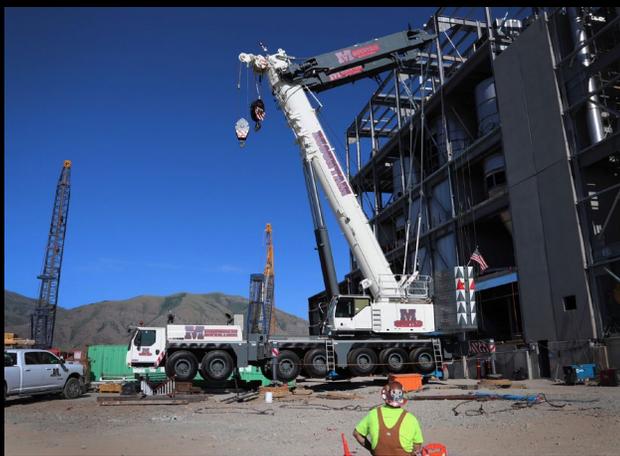

## 10,000 Hours of Incident Free Operation

# Safety Strong

## Safety Share June 2021

In our line of work, schedules change by the minute, due to weather, customer needs etc. That doesn't change our responsibility to do the right thing no matter what . When things change at home, or at work, stopping for one second to double check yourself and others will possibly be lifesaving. Getting home safe is important. If we don't do our jobs above and beyond we may not make it there !

BY LUKE MEYERS, OPERATOR

# M MOUNTAIN

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
