HAPPY NEW YEAR!

2019

Resolutions, Reaching Even Higher, and Creating New Relationships. We're ready for 2019!

Happy New Year! As we begin 2019 we look ahead with a sense of excitement for the future. Our crane and transport divisions are expanding & reaching new heights. We're looking forward to the hard work and challenges that make this industry so rewarding. We're looking to make our customer's experience the very best the industry has to offer. We are MOUNTAIN, and we are MOUNTAIN STRONG! Here we come 2019!

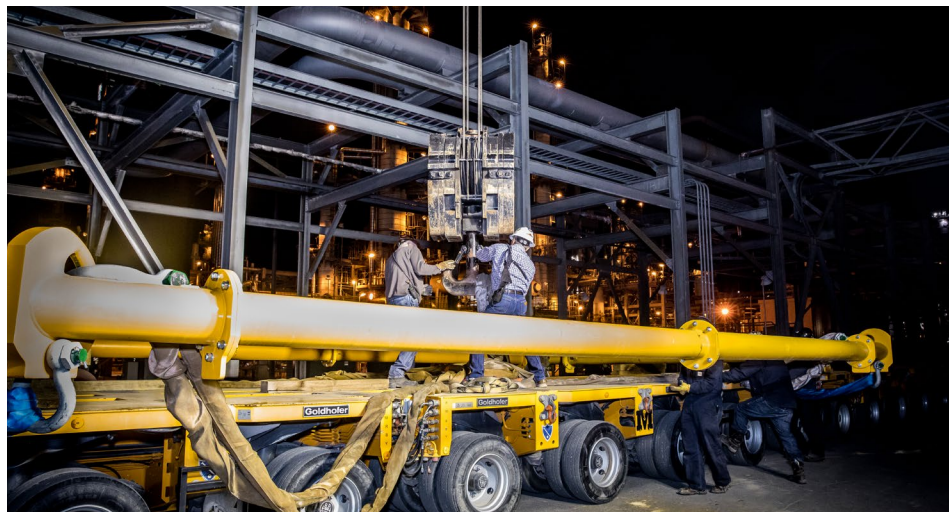

REFINING THE PROCESS

Salt Lake City, UT

As you approach your next big project, consider eliminating unnecessary steps that create room for error & time constraints. With the ease and convenience of our heavy haul experts, the best engineers, and the top notch crane crew we have refined the process of construction. These pictures show a great example of this. It all began with careful planning & engineering, then it was time to execute! With our Goldhofer, the pipe rack modules ranging from 70K lbs to 100K lbs, were moved into place and prepped for the pick. Over a two week period we utilized our 500 and 900 ton cranes both in luffer to pick and set all 6 of these massive pieces. All of this was done as a shutdown at the refinery so communication and coordination between the shutdown crew, the refinery, and new construction team was critical. Congratulations to everyone involved on a job well done!

••••

Manitowoc 777 Crawler

Our Triple 7 was spotted on this brisk January morning working on the South Towne Office Complex just West of I-15. Our crew will be on-site for the next couple months building a parking garage for nearby businesses.

“ MOUNTAIN HEAVY TRANSPORT

Cranes and heavy haul go hand in hand. Almost any job will involve both. Mountain is your one stop shop for both types of work.

MOUNTAIN STRONG

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
