APPLE IPAD!

At Mountain Crane we believe in giving back. Our second annual "Lifting Others" campaign is underway. We are thrilled to see all the different ways our team is lightening the load of so many this holiday season.

From the depths of a water tank to the heights of a tower crane our team has transported, hoisted, and moved all sorts of objects from East to West and a lot of in between this year! 2019 has been a year of growth and exciting new adventures. We are honored to have been a part of so many projects, each bringing a sense of accomplishment and meaningful challenges. We have been all over the country at 41 different wind farms. We've worked on the local airport and prison; we've completed over 50 tilt projects and countless refinery & steel jobs, just to name a few. All these projects bring a feeling of pride and accomplishment to our team. We thank all our customers and employees for another successful year! Big cranes, new equipment, and lots of horse power are very important, but ultimately it's the boots on the ground that get the job done. Bring on 2020!

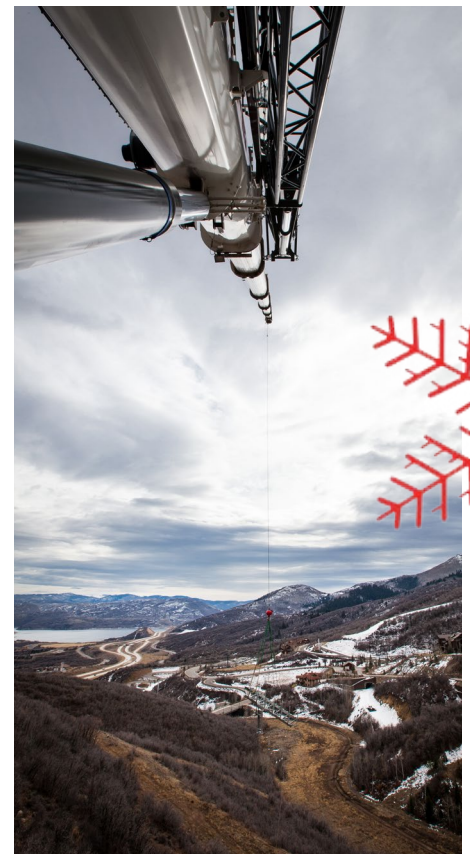

FOUNDATION RENOVATION

When the foundations of these small recreation cabins began to rot out, our crew was called in to help. Utilizing our 275 ton all terrain crane and maneuvering between the pines, we moved a total of 12 cabins so they could be set on new foundations.

LOOKING BACK

Reflecting on this beautiful project from 2015. Our team was working for Deer Valley Ski resort building a new chair lift. The views were stunning!

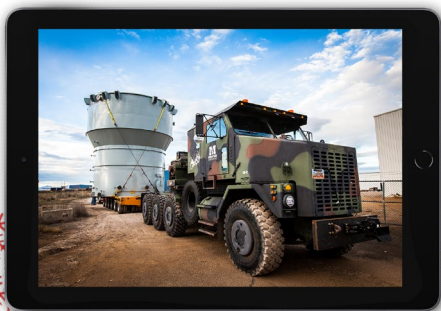

MOUNTAIN STRONG

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
