## SAFETY STRONG

One of our operators sporting his SC&RA safety jacket. Sixteen of our operators recently received the award for 10,000 hours of incident free operating. We are incredibly proud of each of them and their commitment to safety.

Grove 350 ton  
Hydro Crane

## SAVING THE CABOOSE

With new technology the caboose of a train has become a thing of the past. A group of historians worked to save this piece of history.

With an audience of locals in this small town, Our 350 ton Grove crane and crew placed the caboose in it's new home recently. After some renovations it will permanently be on display for all to see.

## IMPROVING THE H2O ....

Our 500 ton and crew were on-site assisting RSCI as they made improvements to a water treatment facility by upgrading the treatment process with new equipment. They worked on 4 different bio reactors. In the end it means cleaner water and less pollutants.

## LOOKING BACK ....

*2019*

One a year ago before schools were interrupted.

Our team placing the new "I" on the side of the mountain for Idaho State University.

Utilizing our Grove, TMS 9000 E

Go Bengals!
