Our team recently set twenty 120,000 lb girders using our Linkbelt 348.

The new bridge will accommodate more traffic in the area & replaces an old, outdated bridge.

## ALONG IDAHO'S SNAKE RIVER

Henry's Fork of the Snake River in Ashton, Idaho

## ONE OF THE FIRST ....

Our engineering team partnered with Liebherr to receive one of the first v23 upgrades for the Liebherr 1750 in the entire U.S.

We immediately put it to good use on this 90 meter turbine while doing wind work in California.

## LOOKING BACK ....

*2004*

Taking it all the way back to our first crane. The Liebherr LTM 1225, 300 ton was one of 3 cranes that started Mountain Crane. The original operator, Rich Hunt still works for us today. Sixteen years later we have over 120 cranes in our fleet and look forward to more growth in the future.

# MOUNTAIN STRONG

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
