We're giving away a 6-pack of Suite Tickets for the Jazz vs. Portland Trail Blazers Game!

Mountain Crane Service performed a unique lift in January, using a Grove 550, a Liebherr 500, and a Grove 275. Working with RMF, Mountain Crane used the three cranes to place a large spray dryer filtration system.

The Grove 550 and the Liebherr 500 lifted the piece up, while the Grove 275 rotated it. Once the piece was rightside up, the 275 was released, and the two larger cranes were able to place the piece in position. The 123,000 pound iron dryer was 61 feet tall, 55 feet across, and was set at a 70 foot radius.

Introducing Mountain Heavy Transport

Mountain Crane is excited to announce our expansion into the Heavy Haul world with a new division: Mountain Heavy Transport. MHT has been established to provide heavy haul trucking, Goldhofer modular platform trailers, rail transportation, and laydown storage capabilities. These services are a great complement to our existing crane business. We look forward to working with our existing customers to earn more of your business.

Keep an eye out for more MHT information in future newsletters.

Check out our Current RT Fleet

Did you know Mountain Crane has over 35 RT cranes? Our RT fleet ranges from 30 ton 110 ton cranes, capable of any size job. All cranes can be bare rented or operated. Call us at 801.282.3330 for more information!

Model	Max Capacity	Main Boom Length	Max Tip Height	Total Gross Vehicle Weight
RT530E-2	30 t (30 USt)	8,8 m - 29 m (29 ft - 95 ft)	44.5 m (146 ft)	27403.8 kg (60415 lb)
