Ultron Special  
Premiere Tickets!**

Mountain Crane is excited to introduce the newest member of the team! One of only four cranes like this in the US, this LTM 1750 9.1 crane has a lift capacity of 900 ton, assembly technology and easy of mobility, making it ideal for tight, small compact spaces, and windfarms. With less build space, quicker assembly time, and fewer load trucks, this crane is ideal for your next heavy lift.

# Congrats to our very own Josh Martin, winner of Utah Business Magazine's 40 Under 40 Award!

Joshua Martin considers his company, Mountain Crane Service, the "easy button." "Our customers push it and their needs are taken care of—questions and concerns are solved," he says. That's why it's no surprise that since Martin joined Mountain Crane, the company has grown to an improbable size and scale. The operation is now the 28th largest crane company in the nation, with a fleet of nearly 100 cranes and revenue in excess of \$50 million.

Martin credits his co-workers for making his job worth it every day. "It's not what I do, it is who I work with," he says. "It is the team as a whole—all hard workers and unselfish. As a team we can accomplish anything." He adds that as a professional, it's also important to have a built-in work ethic and a passion for the work. "When you combine those with time building a network you have a golden formula," he says.

Martin, who is a lifelong Magna resident, spends his free time volunteering with Cyprus High School's athletic teams and the Magna preservation and beautification group.

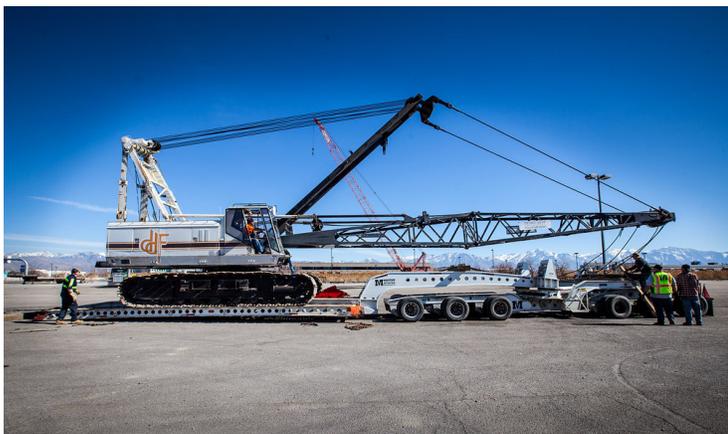

**"Good leaders know how to inspire individuals to make the whole stronger. A business cannot win on the wings of any one position."**

## MHT MINUTE

Mountain Heavy Transport is up and running! We now provide heavy haul trucking, which is a big benefit to our customers. This partnership allows us to provide a superior customer experience. The Mountain team can now be your one-stop-shop for all your heavy logistics needs.

**Keep on truckin'!**
