MILLION POUND PICK

Inside this Issue:

- Million Pound Pick
- Apprentice Graduation
- Mountain Heavy Minute

-AUGUST ENTER TO WIN:

**TICKETS TO THE
 FIRST UTAH GAME
 OF THE SEASON**

Mountain Heavy Transport participated in the largest ever pick and transport at Energy Solutions in Clive, UT. The piece was a 1.2 million pound steam generator that was offloaded from rail, transported to a containment cell, and set on to sand saddles. We utilized a 700 ton gantry and 20 lines of Goldhofer SPMT for the project. The job involved months of planning and ultimately a lot of hard work.

We couldn't be prouder of our team on this historic project!

Apprenticeship Graduation & Employer of the Year

Mountain Crane is proud to support the Operating Engineers Local 3 Apprentice Program. Two of our operators have recently graduated from this 6,000 hour training and work experience curriculum. Congratulations to Jared Mathews and Jeff Skews for all their hard work!

Jeff also received the “Excel Award”. The journeyman operators take it upon themselves to individually mentor the apprentices. Mountain Crane is privileged to have a team of hard-working, talented, and experienced employees.

Additionally, Mountain Crane was given the Employer of the Year award.

Mountain Crane would like to thank the Operating Engineers Local 3 for making this program possible.

MHT MINUTE

Mountain Heavy Transport was recently featured in the July issue of ACT magazine!

For this job, our crane and heavy haul teams worked together to transport and set a massive 60,000 lb. drum into Great Salt Lake Minerals. This was a complex project, and we could be more proud of how the team came together! Our original story can be found in our [April Newsletter](#).

Check out the magazine and full article [here!](#)

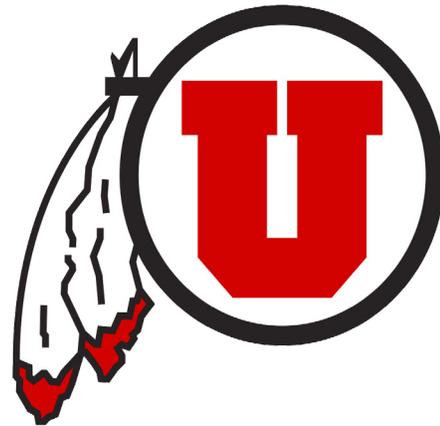

AUGUST GIVEAWAY

Mountain Crane is excited to give away a pack of 4 Tickets to the University of Utah's first Football Game of the season!

Join us Thursday, September 1, 2015 as the Utes take on SUU.

ENTER TO WIN!

Mountain Crane Service provides a variety of crane services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, windturbines, and bridge girders, to name a few.

Mountain Heavy Transport provides all heavy transport services including heavy haul, jack -n- slide, and platform trailers (Goldhofers).

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification.

Check out our website at www.MountainCrane.com for more information.

Utah's Largest Crane Fleet
