An iPad mini 4!

Earlier this year, Mountain Crane had the opportunity to help Ultimate Steel Erection with a project at the Idaho Falls Airport. We had two Grove TMS9000e cranes working in tandem to set all of the trusses. Big thanks to our team for all their hard work and continuous dedication to safety.

# Building Maverik Stadium

Mountain Crane is thrilled at the opportunity to help with the construction of the new Maverik Stadium at Utah State University in Logan, Utah. Mountain Crane is currently providing the crane for the erection of the steel for the press box structure using our Linkbelt 278 300t lattice truck crane.

On the west side, the new four-story premium seating and press box structure will be built to include a state-of-the-art media and game operations area, 24 luxury suites, 20 loge boxes, more than 700 covered club seats and a premium club area that will be used to host a student-athlete training table. Major concourse work will include significantly increased restrooms, upgraded concessions and an enlarged concourse for better pedestrian traffic flow.

Big thanks to Western Steel Erectors for their help in making this all possible.

## MHT MINUTE

MHT ups its game!

MHT recently acquired a Kenworth T800W Prime Mover. We have also added a new 9 and 13 axle steerable trailer to our fleet. These new additions will allow MHT to haul your most complicated loads.

We're looking for a name for the new Prime Mover, any recommendations?  
Send them to [trisha@mountaincrane.com](mailto:trisha@mountaincrane.com).

**COZAD!**  
"THE FINAL WORD IN HEAVY HAUL"

# OCTOBER ENTER TO WIN: Win an iPad Mini 4!

The new iPad mini puts uncompromising performance and potential in your hand. Lighter and thinner than any of its predecessors, iPad mini 4 puts everything you love about iPad into a sleeker, slimmer design. And its gorgeous Retina display is incredibly immersive whether you're watching, shopping, playing or working. Now you'll have even more reasons to take it with you on your next adventure.
