Happy Holidays!

+ 05

Our New Mexico team hung a 10' Christmas tree from the hook of our 900T crawler to celebrate the season.

FINDING NEW SOLUTIONS

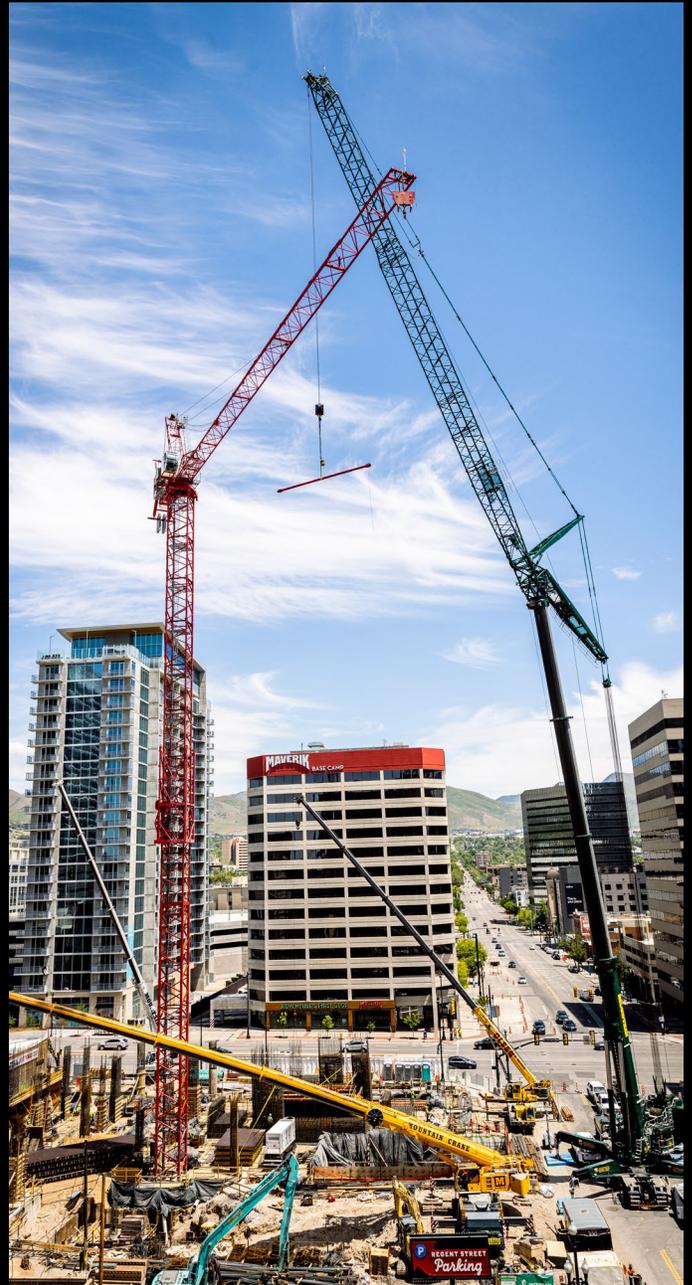

As technology and innovation increase in the construction industry, our team is continually given opportunities to adapt and grow to meet the demands of each project. This year was no different as we have watched our team create solutions for complex projects and diverse situations. We had many jobs this year that were not only a “first of its kind” for Mountain, but also in the entire industry!

REACHING NEW HEIGHTS

EXPANDING VERSATILITY

Our wind, industrial, and general construction teams utilized these opportunities to expand our manpower and our fleet yet again. With safety as our top priority, we have implemented new procedures to ensure that everyday our team is provided with the opportunity for success and to bring a fantastic end result to each of our valued customers! Here's to a year we are proud of!

THANK YOU 2022!

The Team Makes the Difference!

As we reflect upon the great success of 2022, we are continually drawn back to our team who works tirelessly everyday to make the most of each and every project. Thank you to our operators, drivers, field crew, engineering team, sales, administration, dispatch & crane shop! We love our Mountain Family and truly enjoy growing and succeeding together!

Safety Strong, Safety Share

"It's the routine tasks that sometimes bite us if we don't think with a safety mind-set. The first time we do a new task we are very aware of its risks and hazards. But once it becomes ordinary, we can become casual with it. Take a moment to review the simple things we do every day that can be dangerous if we become too casual or complacent."

Ryan Oliverson, Industrial Team

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
