## LR 1600, Panel Perfection!

As the tilt panels continue to get bigger, the Mountain team continues to adapt. Our Liebherr 1600 crane makes the job look easy when in actuality, it takes a skilled team with decades of tilt experience. The snow certainly didn't stop the progress on this building recently. After all safety precautions were taken, the crew got to work! This project included 192 panels, with the largest reaching 56' tall and over 300k pounds.

The magic of a tilt project means the shape of the building takes place quickly and the crew has the satisfaction of seeing their hard work pay off in just a few days. Great job to all involved!

## TRAINING THE MOUNTAIN TEAM

Pausing from the action to educate the team on safety practices, leadership and a enjoy some team building.

## Tower Up!

We see tower cranes all over a city skyline, but these massive towers have to be built just like any other structure. Our tower team is specifically dedicated to safely building and bringing down all sizes of tower cranes. Here our 900 ton Liebherr 1750 build this tower crane which will assist in all the aspects of the project at this water treatment facility.

## Safety Strong, Safety Share

“Follow your gut. If it doesn’t feel right, chances are there’s probably something that isn’t right. So always lean on the side of caution and do whatever it takes to make it home safe every night.”

Bryce Olsen, Field Safety Manager

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
