Foundation Specialization

Expanding our tool chest to meet our clients' needs has always been a priority for the Mountain team. Our reach has extended once again with the addition of a foundation team with wind turbine foundation expertise.

We can offer excellent turn-key packages, including design and engineering, to our customers and we can provide substantial cost savings with the various types of foundations available.

Liebherr 1600 Crawler

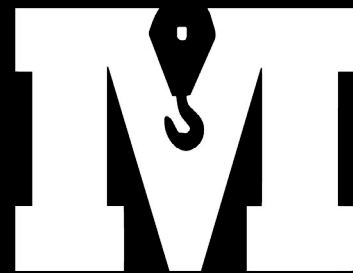

For Rent! The LR 1600 is designed to handle heavy lifting tasks with its impressive lifting capacity. Its load capacity can vary depending on the configuration and additional equipment, but it is generally capable of lifting loads in the range of 600 to 800 metric tons.

Temple Building

It's been an honor to be involved with the construction of the Lindon Temple for the Church of Jesus Christ of Latter-Day Saints. Our Liebherr 1160 crawler crane recently set the 30,000 pound spire structure. We have also had equipment on site for the steel erection and concrete work. We take pride in seeing a project from start to finish!

Safety Strong, Safety Share

"Remember, personal protective equipment must be worn at all times while on any job site and while performing tasks in the yard. Always take care to clean and maintain your PPE so that it is in the best condition for proper protection."

Bryce Olsen, Field Safety Manager

The core of Mountain is a top notch crew who is committed to SAFETY and executing every job with professionalism and precision. We are proud to be Mountain strong.
